EDUCATION

Master of Science in Data Analytics and Information Systems (MSDAIS) <i>Texas State University, San Marcos, Texas</i>	May 2026
Bachelor of Engineering in Electronics and Communication Engineering (EC) <i>Gujarat Technological University, India</i> Cumulative CGPA (9.07 out of 10-point scale)	Jan 2019

CERTIFICATIONS

Data Science by IBM <i>The art of uncovering insights and trends in data</i>	Oct 2023
Data Science Methodology <i>Develop data science methodology skills using Python through real-world inspired labs in Jupyter Notebooks</i>	Nov 2023
Tools For Data Science by IBM <i>Work with platforms like Jupyter Notebooks, RStudio, GitHub, and Watson Studio</i>	Oct 2023
Prompt Engineering for Chat GPT <i>Generative AI tool's emergent intelligence and reasoning</i>	Sep 2023

SKILLS

Programming: Python, SQL, MySQL **Data Visualization Tools:** Tableau, Power BI, MS Excel
Relevant Courses: Machine Learning, Data Base Management Systems, Optimization, Probability and Statistics

EXPERIENCE

Project Executive <i>ReArtham Tech LLP, India</i> - Analyzed datasets using SQL and Python to generate comprehensive carbon audit reports, leveraging insights to propose methods and strategies for how to effectively reduce carbon footprints - Utilized visualization software to develop strategies and recommendations that empowered clients to reduce carbon footprints by 10% achieving an average reduction of 500 metric tons of CO2 emissions per client annually	Oct 2021 – Feb 2022
Private Tutor <i>Freelance Entrepreneur, India</i> - Educated 10+ STEM students providing a comprehensive and well-rounded academic experience in chemistry, physics, and mathematics for students in their junior to senior year of high school - Enhanced test performance scores which yielded 23% improvement rates in Junior High School students - Generated above average test results for 6 seniors who graduated with distinction and 10% above the state average	May 2019 – Jan 2022
Project Lead <i>Eco Lights Studio, India</i> - Led initiatives for a women's empowerment center which trained over 20 women from local villages, focusing on skill development and economic interdependence - Collaborated with rural communities to understand their needs and created customized training sessions aligned with company's requirements - Created a supportive learning environment that fostered personal growth and prepared women to contribute effectively to our organization	Sep 2020 – Oct 2021
Brand Manager <i>Eco Eclectic Tech, India</i> - Led a cross-functional team of 15 at Eco Eclectic Tech, driving innovation in sustainable building materials - Oversaw data entries for seven projects using Google Sheets and Excel to ensure accuracy and efficiency up to 98% - Streamlined processes to support project planning and execution resulting in a 25% reduction in project timeline, developing technologies that convert 5-ton waste into high-strength bricks and Gob Crete, a cement-free concrete alternative	Aug 2019 – Sep 2020

FOCUS AREAS & PROJECTS

Predictive Model for Student Performance <i>Python and MS Excel</i> - Developed a machine learning model to predict student grades based on study habits, family background, and demographics. - Used a Random Forest model to identify key features and classify students at risk of lower grades. - Achieved 89% accuracy in model evaluation using precision and F1 score, recommending interventions to improve student outcomes	Oct 2024 – Dec 2024
